SPECIAL CONDITIONS OF CONTRACT

Limited

Hiring Consultancy Services for Implementation of Integrated Management System (IMS) for all GA location of BGL

Bid Document No. BGL/536/2021-22

SPECIAL CONDITIONS OF CONTRACT (SCC)

1.0 GENERAL

- 1.1 Special conditions of contract (SCC) shall be read in conjunction with the General Conditions of Contract (GCC). Schedule of rates, specifications of work, drawings and any other document forming part of this contract wherever the context so requires.
- 1.2 Notwithstanding the sub-division of the document into these separate sections and volumes, every part of each with and into the contract so far as it may be practicable to do so.
- 1.3 Where any portion of the GCC is repugnant to or at variance with any provisions of the special conditions of contract, then unless a different intention appears, the provision(s) of the special conditions of contract shall be deemed to override the provision(s) of GCC only to the extent that such repugnancies of variations in the special conditions of contract are not possible of being reconciled with the provisions of GCC.
- 1.4 Wherever it is stated in this Bidding Document that such and such a supply is to be effected or such and such a work is to be carried out, it shall be understood that the same shall be effected/carried out by the contractor at his own cost, unless a different intention is specifically and expressly stated herein or otherwise explicit from the context. Contract value (also referred to as Contract price) shall be deemed to have included such cost.
- 1.5 The materials, design and workmanship shall satisfy the applicable relevant Indian Standards, the job specifications stipulate requirements in addition to those contained in the standard codes and specifications, these additional requirements shall also be satisfied. In the absence of any Standard/ Specifications/codes of practice for detailed specifications covering any part of the work covered in this Bidding on the contractor.
- 1.6 In partial modification to Clause No.21.0 of GCC the following shall apply: In case of contradiction between Indian or other applicable Standards, General Conditions of Contract, Special Conditions of Contract, Specifications, drawings, Schedule of Rates, the following shall prevail in order of precedence:

i) Letter of acceptance alongwith statement of Agreed variations.
ii) Fax / Letter of Intent / Fax of Acceptance
iii) Schedule of Rates as enclosures to letter of acceptance
iv) Job / Particular Specifications
v) Drawings
vi) Technical / Material Specifications
vii) Special Conditions of Contract.
viii) General Conditions of Contract
ix) Indian Standards
x) Other Applicable Standards

It will be contractor's responsibility to bring to the notice of Engineer-in-charge any irreconcilable conflict in the contract documents before starting the work(s) of making the supply with reference which the conflict exists.

In the absence of any specifications covering any material, design of work(s) in the same shall be performed / supplies / executed in accordance with Standards Engineering

Limited

Limited

Hiring Consultancy Services for Implementation of Integrated Management System (IMS) for all GA location of BGL

Bid Document No. BGL/536/2021-22

SCOPE OF WORK

Implementation of Integrated Management System (IMS) at BHAGYANAGAR GAS LIMITED against requirement of ISO 9001:2015, ISO 14001:2015& ISO 45001:2018.

BHAGYANAGAR GAS LIMITED is a joint venture of GAIL(I) Ltd., & HPCL and is in the process of supplying piped natural gas to the domestic, commercial, industrial and CNG for vehicles transportation sections within the Geographical Area of Hyderabad, Vijayawada and Kakinada.

The CGD infrastructure consists of following:

- 1. City Gate Station comprising of Odorizing unit, Isolation valves, metering etc.
- 2. CNG Stations comprising of:
 - a) Compressors,
 - b) Dispensers,
 - c) Cascades,
 - d) LCV filling points,
- 3. Steel grid network,
- 4. MDPE Network,
- 5. District Regulating Station (DRS),
- 6. Meter Regulating Station (MRS) for Industrial, Commercial & Domestic Customers,
- 7. Steel grid pipe lines, MDPE grid pipe lines, Isolation Valves with vent lines in Steel & MDPE Lines.

CITY GAS STATION:

Bhagyanagar Gas Limited receives Natural Gas from M/s. GAIL in Vijayawada and Kakinada and from M/s. Pipeline Infrastructure Limited (PIL) in Hyderabad. CGS is an Interface station between the Main Natural Gas Pipeline and Bhagyanagar Gas Limited CGD network. The City Gas Station located in all the three Geographical Station is also called CGS cum Mother Station as the facility was developed where filling of LCV cascades takes place.

CNG STATION:

In CNG stations (on-line as well as mother), there are either Engine or Motor or Gas driven compressor of different capacities 2000 SCMH (GD), 1900 SCMH (ED),

Bhagyanagar Gas Limited

Hiring Consultancy Services for Implementation of Integrated Management System (IMS) for all GA location of BGL

Bid Document No. BGL/536/2021-22

1200 SCMH, 600SCMH, 400SCMH, 250SCMH compressor which compresses gas up to 250 Kg/cm2 with a suction pressure of 14-19 Kg/cm2. In stationery cascades, gas stored at a pressure of 250 Kg/cm2& CNG is dispensed in vehicle at 200 Kg/cm2. SS tubes are also laid in the trench. CNG is dispensed in public vehicles & CGD networks including CNG stations are installed in city area.

The Definitions of CNG stations:

Mother station: CNG facility connected to natural gas pipeline and having a compressor meant primarily to fill mobile cascades for 'daughter' stations. In addition to above, can also fill stationary cascades for CNG dispensing into vehicles

Online CNG Stations: On line stations are connected to the pipeline and have high compression capacity. These stations supply CNG to both vehicles and daughter stations (through mobile cascades). These CNG stations comprises of compressor, dispensers, storage cascades and facility for filling the mobile cascades.

Daughter Booster Stations: Daughter Booster Stations are not connected to natural gas pipeline and have compressor which compresses the CNG of mobile cascade and dispense to the vehicles(s). There is reduction in storage pressure at daughter booster station with each successive filling.

Daughter Stations: Daughter station dispenses CNG using mobile cascades. These mobile cascades at daughter stations are replaced when pressure falls and pressure depleted mobile cascades are refilled at the Mobile Station. There is reduction in storage pressure at daughter station with each successive filling.

PNG installations are installed comprising of MDPE pipe lines, steel pipelines, DRS, MRS, individual meters, regulators, risers, pipes & fittings, Commercial, Domestic & Industrial Installations etc.

District Regulatory Stations (DRS): The gas pressure is reduced to distribution pressure in DRS, for transmission and supply purposes. The DRS is directly linked to the main steel pipeline. From the DRS, takes off the Medium Density Polyethylene (MDPE) network. The MDPE network of pipes carries and distributes PNG right up to the customer premises.

Meter Regulating Stations (MRS): It comprises of regulator and meters for measuring the gas supplied to the consumers. The pressure regulatory further reduces the PNG pressure in the pipeline to millibars.

Bhagyanagar Gas Limited installations at various cities:

Bhagyanagar Gas Limited is operating the city gas distribution network at Hyderabad of Telangana State, Vijayawada and Kakinada of Andhra Pradesh.

Head Office – Hyderabad

Mother Station – Hyderabad, Vijayawada & Kakinada

Limited

Bid Document No. BGL/536/2021-22

DETAILED SCOPE OF WORK

1. Implementation of Integrated Management System (ISO 9001:2015, ISO 14001:2015 & ISO 45001:2018):

Implementation of Integrated Management System (all three standards ISO 9001, Environment Management System 14001 & OHSAS 18001 Standards – latest version) along with Aspect /Impact Analysis, Environmental Management Programs, Hazard Identification, OHSAS & any other related to IMS at Bhagyanagar Gas Limited for present installations and upcoming infrastructures.

2. GAP ANALYSIS & CONCEPTUALIZATION :

Party shall visit and evaluate present practices against the requirements of IMS and prepare the report on following -

- Infrastructure for IMS deployment
- Detailed Road map
- Review & gateway

3. RISK IDENTIFICATION, ASSESSMENT & DETERMINATION OF CONTROLS:

3.1 Evaluating the risk assessment for Quality, environment and Health & safety through hand holding on development of aspect Impact analysis and hazard Identification & Risk analysis for all activities.

4. DOCUMENTATION:

- 4.1 Counseling for documentation and facilitation for implementation & support for improvement.
- 4.2 Preparation of all necessary Documentation of IMS including IMS Scope, Policy, Objectives and Management Programs in all respect.
- 4.3 Preparation of document, preparing Procedures, Apex system Manual (ASM), Departmental system Manual (DSM), Register of Regulation (RoR) & other manuals review of their adequacy, Finalization and release. The cost may be included in the offer.Documentation related to departments of HR administrative services, Marketing, Contracts & Procurement, HSE, Finance & Accounts, Projects and O&M shall be prepared.

4.4 Preparation of Environment, health & safety Management programs.

4.5 Assistance in Implementation of documented IMS.

5. IMPLEMENTATION METHODOLOGY

5.1 Meeting with top management to understand management concerns, objectives, expectations regarding functioning of various processes related to QMS, EMS,

Limited

Bid Document No. BGL/536/2021-22

OHSAS, accordingly establishment of IMS Policy and broad IMS objectives

5.2 Identification of various processes and formation of cross-functional team and appointment of Management Representative(s).

5.3 Study of various processes in coordination with cross functional team to understand the need of documentation for various processes to exercise effective control.

5.4 Determination of legal, safety, acts and other applicable requirements Rules/ acts.

5.5 Environmental review to identify the Environmental aspects of its activities, products and services and determination of significant environment aspects.

5.6 OHSAS review for potential hazard identification, risk assessment and risk control.

5.7 Development and completion of documentation as per master list of documents like procedures, work instructions, formats and other document as per requirements.

6. IMS PRECERTIFICATION AUDIT & REVIEW:

- 6.1 Precertification audit and coordination of management review. Preliminary Audit shall be conducted before the certification Audit as per the requirement. Audit will cover the following:
- 6.2 Audit on sampling basis & visit at any nearest sites.
- 6.3 Review of documents
- 6.4 Documentation.
- 6.5 Status report and action plan with respect to readiness for certification audit.

6.6 After the preliminary audit the area of concern shall be discussed.

- **a.** Review of documents, manuals & procedures.
- **b.** To verify the compliance effectiveness & implementation.

c. Minimum one or two expert from party will provide assistance in preparing the documents pertaining to IMS.

Correction/ updating of Documents, manuals & procedures shall be done by the party.

7. IMS TRAINING:

7.1 Awareness training program on methodology, Quality Management Principles, and basic requirements of ISO 9001:2018, ISO 14001:2015 & ISO 45001:2018 requirements. One Training program/ workshops/ Awareness program among the BGL employees are to be provided by the vendor. Training shall be given at GA's – Hyderabad, Vijayawada & Kakinada. Creating a atmosphere conducive for change, Attitude change, importance of having system, Customer satisfaction, team work, Understanding of basic requirements of standard, how system will be created. Training will cover the following –

Bid Document No. BGL/536/2021-22

7.2 Awareness on IMS

Bhagyanagar Gas

Limited

7.3 Documentation & Implementation of IMS

8. OTHER REQUIREMENT

8.1 The implementation shall be carried out as per ISO 9001, 14001 & 45001 latest versions.

8.2 Miscellaneous expenses in connection with the work such as Telephones, Fax, Stationary, etc will be borne by the vendor only.

8.3 The minimum number audits as required for IMS may be conducted by the party.

8.4 Draft report shall be submitted by the party within one month of final visit.

8.5 Discussion on draft report shall be held with the senior management of BGL on a suitable date. No extra cost for this visit shall be provided by BGL. Final report shall be submitted by the party within one month after getting written confirmation from BGL.

8.6 During field visit if asked by the party BGL shall provide assistance for the expert.

9. BGL / Contractor SCOPE: -

9.1 BGL will not provide any lodging boarding & travelling facility. Party has to arrange at their own. Rates may be included while quoting for the tender as per the schedule of rates. Travelling up to the BGL office/ site location is in the scope of the party.

9.2 Local conveyance shall not be arranged by BGL.

9.3 Space for meeting/ workshop/ awareness program shall be arranged by BGL

9.4 The contractor shall arrange Electronic Gadgets like Computer / Laptop / printer

etc for document preparation and Printing of Documents etc is in agency scope.

9.5 During field visit if asked by the party BGL Gas shall provide assistance for the

expert.

10. TIME OF COMPLETION

Total period of the contract for IMS implementation shall be one year (01) from the date of award of contract. Party shall mobilize within 7 days after getting written intimation from BGL

11. MISCELLANEOUS:

11.1 For implementation, analysis, the required data, drawings and documents shall be provided by BGL. A list may include;

Limited

Bid Document No. BGL/536/2021-22

- a) Facilities description.
- b) Relevant process data.
- c) Piping and Instrumentation Diagrams (P&IDs).
- d) Operating manuals.
- e) Equipment specifications and Process and Engineering data sheets of major equipment and critical instruments.
- 11.2 The data/drawings etc. so provided by BGL shall not be shared with any person /

institution without the prior intimation & permission from BGL

- 11.3 Only well trained & experienced professionals shall be deployed so that they are competent to do the jobs as per scope of work & SOR and as per the satisfaction of the Engineer In-charge.
- 1.4 The site may be visited by the party prior to quoting for the tender in order to assess the scope of work.
- 11.5 Party may assess the number visits required for execution of the job and quote accordingly.
- 11.6 The party shall accompany and provide services till certification received from the accreditation body.
- 11.7 The party shall prepare and streamline the documentation with procedures for all the departments.
